

HEADLIGHT LED WITH HEATED LENS

Art.no: 10-0415

Head light with hi beam, low beam, position light and a directional indicator. Approved according to ECE R6 and R7. The lens on this head light can be heated to prevent ice to build up on the lens or on the housing. The directional indicator module can be mounted either to the left, right or on top of the head light. The mounting bracket for the light can be positioned either at the bottom or at the rear of the housing.
