

TRUCK&TRAILER KIT VOLVO

Art.no: 27-TC101P5

Trailer kit compatible with Volvo backup camera systems. The kit is adapted for 5-pin backup camera systems. It uses the original camera even on the trailer. This means that you have the option to display the trailer camera image on the original screen in the truck. The kit saves installation time and provides a reliable setup. Comes complete with two trailer sockets to be mounted on the truck and trailer respectively, along with a coiled cable for connection between them.
