

B23 BEACON BOLT MOUNT

Art.no: 14-23223

B23 is a pole mount rotational warning beacon with flashing light pattern. Approved according to ECE R65 class 1/TA1. The beacon has a low and aerodynamic profile with aluminum base. Suitable for all vehicles that require a vibrational resistance light with powerful warning effect. B23 has 12 different flash patterns to choose from.

Technical information

Brand	Juluen
Voltage	12/24V
Effect	30W
Current	1.25A/12V ; 1.25A/24V
IP rating	IPX7
ECE Approval	R65klass1TA1
EMC Approval	R10
Diameter	90 mm
Montering	Rod mounting
Light pattern	Flash
Warranty	5 Year
Synkronisering	-30 till +65 grader C
Weight (kg)	0.900000
