

TAIL LIGHT LC12T TRAILER 24V RIGHT/LEFT LC12T LED TAIL LAMP RIGHT

Art.no: 12-161010

LC12T is a 100% LED tail lamp from Vignal Systems, suitable for trailers and dollies. The light is robust with a sealed polycarbonate lens, providing water tightness according to IP69K. LC12T is only 40 mm thick and the slim dimensions protects the lamp better. This tail lamp has an integrated ballast with a LED direction indicator failure detection system. Four additional build-in super seal connectors at the back of the lamp makes it easy for the user to install extra lighting such as position lamps, marker lamps, license plate lamps and work lamps. One of the connectors is compatible for management of side marker flashing lamps, supplement 6- R48. At the rear of the tail lamp is a 7-pin AMP-connector. Functions include: direction indicator (with a dynamic indicator option), reverse, stop, tail light, fog light and triangle.
